Summary

A motivated and detail-oriented student currently pursuing a Bachelor of Computer Applications (BCA) with a specialization in Data Science from Sri Balaji University, Pune. Adept at applying analytical and programming skills to solve complex problems. Proficient in data science tools and programming languages including Python, R, SQL, and machine learning algorithms. Eager to apply my academic knowledge and hands-on experience in data analysis, statistical modelling, and data visualization to contribute effectively in a data-driven role.

Experience

Data Analyst Intern | Code First Technology - Pune, India

May 2025 - July 2025

- Conducted exploratory data analysis (EDA), feature engineering, and model deployment, addressing data inconsistencies, null values, and outliers.
- Developed a linear regression model for real-time prediction.
- Proficient in ML libraries: NumPy, Pandas, Matplotlib, Scikit-learn, and TensorFlow.
- Utilized Power Query Editor and data transformation techniques (e.g., inconsistencies, merging, DAX) for cleansing and visualization.
- Designed dashboards for Employee Payroll, Employee Performance, and Sales Performance.
- Executed advanced analysis on real-time employee data using MS Excel.

Education

BCA (Data Science) | Sri Balaji University, Pune

2023-2026

- Overall CGPA – 9.20

Senior Secondary (XII) | CBSE

2021

- Stream: PCB, CGPA: 8.75

Projects

Salary Predictor | Regression Model

- Developed a salary predictor using Linear Regression in Python with scikit-learn.
- Trained the model on professional salary data to derive precise coefficient and intercept values for accurate prediction.
- [Link](#)

Movie Recommendation | Content-Based Recommender

- Developed a content-based movie recommendation engine (Cinemax) using NLP and ML techniques.
- Utilized Python, Scikit-Learn, Pandas, NumPy, and Flask.
- [Link](#)

Generative AI: Intelligent Customer Support Chatbot | AI Chatbot

- Implemented NLP pipelines including Tokenization, Lemmatization, and Bag of Words for preprocessing textual data.
- Trained a Deep Learning (Sequential Neural Network) model to classify user intents with high accuracy.
- Mapped user intents to appropriate responses.
- [Link](#)

Certifications

Python for Data Science, AI & Development | Coursera (IBM)

- Certification in Python for Data Science, AI, and Development from Coursera (IBM).

The Complete Data Science Bootcamp | Udemy

- Comprehensive bootcamp covering data science fundamentals and advanced topics.

Complete Roadmap from Data Analyst to Data Scientist | LinkedIn Learning

- Roadmap and guidance for transitioning from Data Analyst to Data Scientist.

Skills

Python | SQL | R | Machine learning algorithms | Power bi | Tableau | Advance MS Excel | MS PowerPoint | NumPy | Pandas | matplotlib | seaborn | scikit learn | NLP | Neural networks | Deep learning | Py Torch | Tensor Flow | Flask | Statistical analysis | Probability Agentic AI | LLM models | Data Mining | Data preprocessing | GitHub | Artificial Intelligence

Soft Skills

Critical Thinking | Collaboration | Communication skills | Business Acumen | Adaptability | Continuous Learning

Achievements

First Runner up of national music competition Sur Tarang, Rajasthan in 2019.
Second Runner up of Swaralankar music competition in BMCC, Pune in 2023.
NSS and CCT Member of College Committee.

Hobbies and Co curricular activities

Singer | Song Writer | Music Director | Music Producer |Guitarist |Pianist
